

October 10, 2023

Dear Valued Customer:

This letter is to notify you that PSE&G will soon begin construction activities in your neighborhood to continue to provide safe, reliable service. Crews will be actively working on the PSE&G and public rights of way in the town of Delran. Below you will find some construction updates:

- On or about Monday, October 23, 2023, PSE&G is scheduled to begin Nighttime underground construction work to install a manhole system along portions of **Hartford Road between the intersecting streets of; Pear Tree Court, Millers Run, Summerhill Drive, Hidden Acres Lane, Grand Boulevard, Bridgeboro Road, and Ashley Drive. Work hours will be from 8pm to 5am. This work is expected to take place through January 2024.**

There may be some unavoidable sound connected to this construction. PSE&G will monitor all sound activities to align with acceptable limits, and minimize adverse impacts to the area. All schedules are estimates, weather dependent and subject to change. **Lane shifts, detours and road closures may be required during construction and will be coordinated with local police and traffic control.**

There are no planned electric service outages as a result of this activity.

Safety is our highest priority. PSE&G will work with the local police department to safely control the flow of traffic for motorists and pedestrians. It is essential that you and anyone using your property, including children and pets, refrain from going near our construction work zones.

We appreciate your patience and support as we improve the electric service reliability for your neighborhood and the region. If you have any questions about this project, please call the project information line at **1-800-606-0045**.

Sincerely,

PSE&G Public Affairs
