

COMMUNITY SOLAR

CLEAN, GREEN, AFFORDABLE

ENERGY FOR ALL

Lower Energy Costs

25% off the portion of solar credited to your PSE&G bill

Access for All

Renters and homeowners can access the benefits of solar without installing panels

45,000+

Program prevents over 45,000 tons of carbon emissions in the state each year

Go green for guaranteed savings!

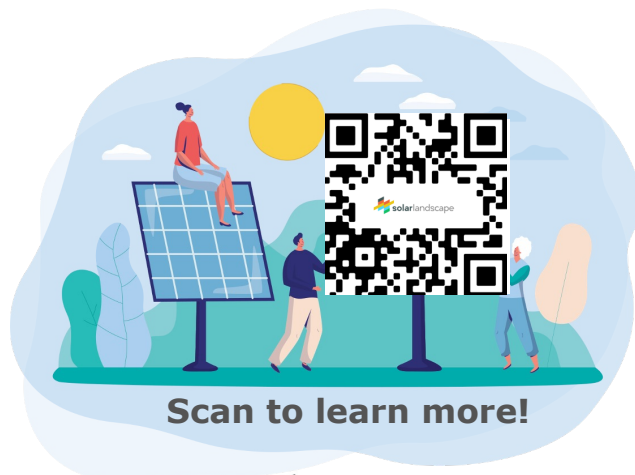

Community solar is a state program that allows customers to enroll in the benefits of clean solar energy without installing panels on their property. Community solar delivers energy from solar panels located on nearby commercial properties to the local power grid. Subscribers enroll on-line and save money every month while lowering their carbon footprint.

FAQS

What is Community Solar?

A state program that allows large "shared" solar projects to be built on commercial rooftops to provide all residents the benefits of solar energy (without panels).

Your local project is at 601 Delran Parkway. The electricity produced on this project is sent to your local power grid and provided to your home at a discount when you enroll.

Are there any fees or changes to my property?

There are no fees to sign up or cancel, and no changes to your property.

How much will I save?

You will receive a 25% discount on the electricity that is credited to your account by the community solar project. The discounts begin when the community solar project is energized. Projected date: December, 2022.

How do I enroll?

1. Go to www.Arcadia.com/SL25
2. Use the invite code: **GTDELTRAN**
3. Link your PSE&G account to Arcadia
4. Set up your account on autopay. *NOTE: If you currently pay your PSE&G bill through automatic payments they will have to be turned off first*

What happens when I enroll?

1. You reserve your spot on the Delran community solar project.
2. Arcadia will immediately begin to coordinate secure payments of your utility bill to PSE&G.
3. PSE&G utility bills will be sent to you via email.
Note: Your account with PSE&G will remain as is and can be checked online at any time as before.
4. You will begin to see savings every month once the electricity is allocated to your account. You are now a part of local clean, renewable, and lower cost energy!
